

INTERNSHIP PROGRAM

INTERIOR DESIGN

Providing specialized learning opportunities to help students gain valuable skills and knowledge.

Are you looking to jump-start your career with real-world experience? At Cushing Terrell, we offer an internship program with tremendous opportunities to further your understanding of the architecture, engineering, and design industry. The program will immerse you in day-to-day work, learning alongside design professionals and working on actual projects. Experience the full integration and coordination of a multidisciplinary firm and be mentored by team members who are passionate about delivering imaginative, responsible, first-of-their-kind environments.

Completing an internship at Cushing Terrell gave me deep appreciation for the meaningful collaboration across disciplines and the strong sense of community it fosters. The internship allowed me to grow immensely as a designer through creation of physical material palettes, biweekly creative meetings with architects, attending client meetings, exposure to industry professionals, and hands-on site visits that brought the full construction process to life.

Lauren English
Interior Design Intern

What to Expect as an Interior Design Intern

- A fun and creative work environment
- Real-world interior design and construction administration experience
- Mentorship to guide you as you tackle day-to-day challenges
- Work alongside and learn from professionals in a variety of disciplines
- Hands-on experience with Cushing Terrell's collaborative design process
- Site visits with project leads (dependent on project phase and time of year)
- Introduction to the business side of the architecture/engineering/design industry including:
 - Construction documents, primarily in Revit
 - Attend meetings, take notes, prepare meeting minutes
 - 3D modeling, primarily in Sketchup
 - Selection of finishes
 - Material knowledge through product research and assisting in maintaining the design library
 - Using a variety of programs such as Revit, Sketchup, Microsoft Office Suite, Bluebeam, Adobe Creative Suite, and Outlook.
 - Coordinate and attend rep visits
- Gain exposure to the variety of project types we complete at Cushing Terrell with access to the teams who complete them
- A memorable experience that will equip you with tools for setting and reaching your career goals

The Cushing Terrell Experience

Indoor spaces have a huge influence on people's health, well-being, productivity, ability to learn, and so much more. Cushing Terrell's interior design experts harness this influence not only to create successful projects for clients, but also to improve people's daily lives. We create interior spaces that successfully meet the unique requirements of occupants and enhance human experience. Our interiors team contributes to projects in all markets, including commercial, education, government, healthcare, residential, and retail to provide safe, functional, accessible, people-centered environments.

By integrating architecture, engineering, urban planning, landscape architecture, interior design, and more, we approach the design of the built environment with a holistic mindset and a goal of contributing to sustainable systems and spaces that help people live their best lives. Our broad range of specialized service offerings, global project locations, and a love for exploration, research, and discovery make each day a unique adventure.

Every day at Cushing Terrell challenged me to think bigger, design smarter, and care more deeply.

Will Tapler
