

INTERNSHIP PROGRAM

LANDSCAPE ARCHITECTURE

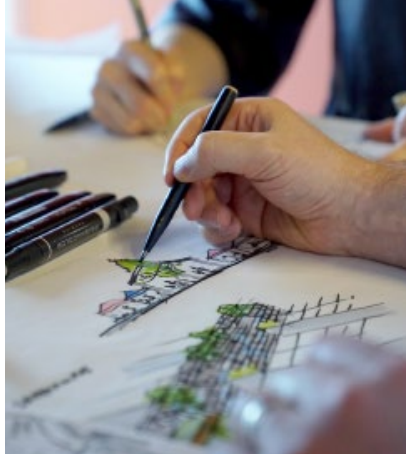

Providing specialized learning opportunities to help students gain valuable skills and knowledge.

Are you looking to jump-start your career with real-world experience? At Cushing Terrell, we offer an internship program with tremendous opportunities to further your understanding of the architecture, engineering, and design industry. The program will immerse you in day-to-day work, learning alongside design professionals and working on real projects. Experience the full integration and coordination of a multidisciplinary design firm and be mentored by team members who are passionate about delivering imaginative, responsible, first-of-their-kind environments.

What to Expect as a Landscape Architecture Intern

- A fun and creative work environment
- Real-world landscape architecture project experience
- Mentorship to guide you as you tackle day-to-day challenges
- Work alongside and learn from professionals in a variety of disciplines
- Hands-on experience with Cushing Terrell's collaborative design process
- Site visits with project leads (dependent on project phase and time of year)
- Weekly specialized learning courses:
 - Site Analysis and Concept Design
 - Design Principles and Drafting
 - Planting Design and Material Selection
 - Hardscaping and Construction Basics
 - Stormwater Management and Environmental Considerations
 - Public Engagement and Professional Practices
- Introduction to the business side of the architecture/engineering industry
- A memorable experience that will equip you with tools for setting and reaching your career goals

The Cushing Terrell Experience

Cushing Terrell's landscape architects design projects that range in size and scope from healing gardens in healthcare settings to comprehensive plans for municipalities and counties. Our team's goal is to design welcoming, well-integrated, accessible, and sustainable parks, urban green spaces, campuses, and workplaces, as well as to enhance retail and residential spaces with access to nature and biophilic elements that support healthy living. From planning and design to preservation, Cushing Terrell landscape architects are recognized experts in the field, creating all types of outdoor spaces and experiences to help achieve our clients' dreams.

By integrating architecture, engineering, urban planning, landscape architecture, interior design, and more, we approach the design of the built environment with a holistic mindset and a goal of contributing to sustainable systems and spaces that help people live their best lives. Our broad range of specialized service offerings, global project locations, and a love for exploration, research, and discovery make each day a unique adventure.
